

2nd Circular

Marine and Inland Waters Research Symposium former Panhellenic Symposium on Oceanography & Fisheries **2021**

**AKS Porto Heli Conference Center
Porto Heli, Argolida, Greece
14-17 June 2021**

HCMR Researchers Association
Panhellenic Association of the HCMR Employees

Supported by the

Hellenic Centre for Marine Research

Marine and Inland Waters Research Symposium

former Panhellenic Symposium on Oceanography & Fisheries

2021

The **MARINE AND INLAND WATERS RESEARCH SYMPOSIUM 2021** is supported by the HCMR Researchers Association, the Panhellenic Union of HCMR Employees and the Hellenic Centre for Marine Research.

AIM

The **MARINE AND INLAND WATERS RESEARCH SYMPOSIUM 2021** aims to become once again a meeting point and opportunity for discussions, exchange of views and strengthening of social and professional relationships between researchers active in the Mediterranean, Black Sea and neighboring areas. Among the main priorities of the Symposium is to offer to young scientists and students the opportunity to present the results of their research.

LOCATION – DURATION

The **MARINE AND INLAND WATERS RESEARCH SYMPOSIUM 2021** will be held at the AKS Hotel Conference Centre in Porto Heli (<https://www.akshotels.com/>) from Monday the 14th until Thursday the 17th of June 2021.

LANGUAGE

The official language of the **MARINE AND INLAND WATERS RESEARCH SYMPOSIUM 2021** is English.

GENERAL TOPICS

Contributions (oral or poster presentations) should be relevant to the following general topics:

Climate Change
Non-indigenous species intrusion
Physical and Chemical Oceanography
Marine and Freshwater Biodiversity and Ecosystem Functioning
Marine Geology and Geophysics / Seismology
Genetic approaches in aquatic sciences
Fish, Fisheries and Fishers
Management of Marine Biological Resources
Aquaculture
Ecology and Management of Inland Waters
European Marine Policies Implementation
Environmental Quality / Pollution
Operational Oceanography – Deep-sea Observatories
Marine Technology
Research Infrastructures
Underwater Archaeology
Informatics in Marine Sciences
Environmental Education and Awareness

SPECIAL SESSIONS

The Organizing Committee invites contributions to the following Special Sessions:

- Microbial Ecotoxicology using –omics and classical approaches
- Science learning outside the classroom: excellence, creativity and recommendations
- Submarine Groundwater Aquifers, a scientific challenge of high socioeconomic impact, technological and scientific advances
- Vulnerability of freshwater ecosystems to multiple stressors impacts
- Anthropogenic Litter and Plastics Pollution

Detailed description of the Special Sessions is available on the Symposium [website](#).

KEYNOTE LECTURES – ROUND TABLES

The scientific program will include key-note lectures by internationally renowned scientists. They will address issues that are at the forefront of scientific research on the topics of the Symposium.

Round Tables will be scheduled with the aim to provide the floor for open discussion on current issues and hot topics with significant social impact.

Keynote Lectures and Round Tables will be announced in the program.

INSTRUCTIONS TO AUTHORS

Detailed instructions and the relevant template for drafting contributions are available on the Symposium [website](#).

IMPORTANT DEADLINES

Paper submission November 15th, 2020

Early Registration December 31st 2020

REGISTRATION

Registration will be submitted electronically via the Symposium [website](#).

Fees	Early	Late
Full registration	100 Euros	150 Euros
Students	50 Euros	50 Euros
Accompanying persons	80 Euros	80 Euros
